The application has been amended as follows:

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claim 45 (*on page 67 – as it appears between claims 49 and 51*) been renumbered 50.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or fairly suggest the claimed invention. See USP 6,239,142 B1 column 1 line 43 thru column 4 line 13. Note the position adjacent to the ring sulfur has a R3 substituent instead of a *-A-W-B-R3* substituent as instantly claimed. See the reference column 2 lines 8-31 where R3 is defined and further note that it does not result in the same substitution as instantly claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
